

Dosbarth Marloes

Summer 2025

What a year it has been! Dosbarth Marloes have had a fantastic year. I am so proud of how hard everyone in the class has worked and what they have achieved.

We started in September with our topic 'Climates and Habitats', finding out about animals in our own climate and then moving on to learning about climates around the world. For our sparkly starter we planted daffodils, made fake snow, collaged pumpkins and went on an Autumn scavenger hunt. During this topic, the children showed particular interest in the Inuit people and learning about their diet.

We then moved onto 'Neyland- now and then', focusing on Brunel and the impact of the railway on Neyland. We enjoyed a talk from Dr Simon Hancock about Neyland and were fascinated by the pictures he showed us too! We went on a walk through our local community and explored the sites of Neyland.

We continued our learning journey with the topic 'Natural Disasters' where we started with a fantastic volcano experiment and studied tornadoes through the story of 'The Wizard of Oz'. We then moved onto learning about 'Celts - Myths and Legends' and discovered tales from Wales' past and enjoyed an amazing trip to Castell Henllys! Thankfully, we don't use wattle and daub anymore....stinky!!!

Finally, we discussed 'Food and Farming', focusing on how the industry has changed over time and how important this industry is for Pembrokeshire. We have studied machinery and how it has evolved and were shocked at what we still use today! We all enjoyed a fantastic trip to Folly Farm where we learnt about diversification too!

The time has come for us to say farewell and for Dosbarth Marloes to move onto their next adventure. We would like to thank you as parents and carers for all the support over the past year - it has been a pleasure!

I wish you a fantastic summer holiday, stay safe and best wishes for the year ahead! I can't wait to see what you will achieve!

Miss Thomas 😊 x
