July 2026

I'm not sure there has been a faster year than the one that has just flown by!!! Dosbarth Whitesands what a year we have had together. Some of us started the year with an absolutely fantastic 3 days in Cardiff, visiting the Senedd, having fun in Techniquet and whizzing around Cardiff Bay on a speed boat. Lets not forget the Year 4 visit to Sealyham- lots of mud and lots of fun! We have covered a range of topics from electricity and classification to Ancient Greece and Welsh Tudors! WOW!! Every week has brought something new, and we have made memories that will last forever. I am proud of every single one of you. Keep shining brightly my little superstars. Finally, to all of you, Mums, Dads, Carers, this year wouldn't have been possible without you. Thank you for the support you have given over the year, thank you for keeping up with fast paced school life and the many ParentMails we need to send. Your support and hard work is very much appreciated. I wish you all a summer filled with memory making and hopefully a little down time and relaxation. Before we know it, we will be prepping for the 1st Day back to school.

As you move into your new classes next year, remember that some nerves are normal. You are strong, resilient and brave. Always try your best and remember that we are all here to help you. Change can be scary but it's also how you grow and learn. Think of how much you have grown over this year, the progress and the difference you have made. Keep it up next year.
